## Polish Yachts - Quality, Comfort, Safety

**Of Poland's most highly developed sectors of the economy**, one stands out in particular. **This is the specialised water craft sector.** It brings prestigious products to global markets, allowing dreams of conquering international waters to come true and providing a complete sailing experience.

Polish yachts are built with a passion and love for sailing. They are designed by yachtsmen and for yachtsmen, making them perfectly suited to the needs of customers. Our designers refine them in every detail – their appearance, safety, comfort and performance.

Polish manufacturers pride themselves on their unique ability to combine classic solutions with a modern and innovative approach to production processes. You can feel their experience and concern for user satisfaction in every Polish vessel.

Polish yachts are an offer for every yachtsman – professionals and amateurs, lovers of tourism and luxury, but also sportsmen and recreational sailors. It is for them that robust constructions are created that prove themselves in the most demanding waters.

## Polish Yachts - Quality, Comfort, Safety

We combine functionality and design. We do not compromise on quality, durability and safety. Polish yachts are more than just products. They highlight what is most beautiful about sailing. They allow you to feel the beauty, luxury and freedom associated with this pastime. When you buy a yacht from Poland, you can be sure that you are on the right course. Because a Polish boat is not just a product for sale – it is also a guarantee of happiness and fulfilment.

## The Marine Industry in Poland

**Approximately 95% of the production in the Polish marine industry is exported.** The main export directions are the United States of America, Western Europe and Scandinavia, although Polish companies continue their expansion into other attractive markets around the globe, such as Asia, Australia, and United Arab Emirates.

However, the domestic market in Poland is also very receptive. With a 440 km coastline, over **7,000** lakes with a surface of more than 2.47 acres and more than **600** inland and sea marinas, a long sailing tradition and a common love for water, Poland is a very promising market with a great number of potential users and buyers. Every day in the summer months, about **15,000** vessels and **60,000** people sail the waters of the Great Masurian Lakes.

- ▶ **95% of production is exported**
- ▶ **Large domestic market**
- ▶ **Traditional love of sailing**

## **Poland: a Leading Manufacturer in the Yachting Sector**

Polish manufacturers deliver worldwide a diversified range of vessels, including award-winning luxury motor yachts, sail boats, and motorboats.

**Poland is a leader in the production of motorboats of 6–12 metres in length with an outboard engine. In this internationally-known category, it holds 1st place in Europe, and second in the world, just after the US.**

**Diversified offer**

**Super-yacht manufacturers**

**Components, parts and maintenance materials**

## Development-Oriented Industry

### **The Polish marine industry is focused on smart growth.**

It takes the strength of traditional solutions used by generations of Polish manufacturers and combines it with big investments in production plants, a flexible approach, and a responsiveness to innovative, up-to-date features solidly based on R&D projects and superlative education in marine engineering.

Thanks to its reinvestment policies, Polish shipyards continuously develop and modernise their infrastructure. **Over the last several years, Polish manufacturers have made a string of investments, devoting revenue to additional expansion and improvement of production processes.**

- **Reinvestment policy**
- **Sustainable solutions**
- **R&D projects**

Photo: Dracan

## Development-Oriented Industry

Meanwhile, the Industry is mindful of the need to minimize its carbon footprint. The same is true for the implementation of cost-effective and sustainable solutions in plants and during production processes, using light recyclable materials, and renewable resources. Conscious of the importance of using “green” solutions, the wide scope of these is being developed all the time.

**The Polish yachting industry is represented by The Polish Chamber of Marine Industry and Water Sports (POLBOAT).**

Its prestigious voice is appreciated and valued by international organisations, such as ICOMIA and EBI. POLBOAT launched the POLBOAT Yachting Festival and holds it every year - the most important yachting event in Central Europe.

**The Polish Investment and Trade Agency cooperates closely with POLBOAT, supporting the Polish yachting industry in international business relations and in developing and strengthening the brand awareness of Polish companies.**

## A-SPE Europe

A-SPE Europe is a manufacturer and a supplier of high-quality safety signage solutions to the Marine, Offshore, Oil & Gas industries. Our products are certified by accredited notified bodies, depending on the required regulations for a specific product range.

### Company's offer

- IMO Safety Signs
- Pipe Identification Tapes & Markers
- Photoluminescent Low Location Lighting Systems
- Reflective Warning Tapes
- Anti-corrosive Tapes
- Antispray Tapes

### Certificates

- Certyfikat QMS ISO 9001
- Certyfikat MED (Maritime Equipment Directive)

### Forms of cooperation

- International trade and distribution

## Airmech

Airmech, your partner in design and procurement. We offer comprehensive technical and logistical support. Our offerings are based on well-known, reliable, and high-quality brands. Every year, we participate in a wide range of recreational and commercial projects. Airmech collaborates with the world's largest shipyards. Working with leading design offices, our experienced engineers provide comprehensive support throughout the design process. Our extensive technical knowledge and practical experience give us a competitive edge in the market. The Airmech sales department ensures high-quality customer service.

### Company's offer

- Air conditioning
- Fire and gas detection systems
- Fire extinguishing systems
- SEA.AI machine vision
- Power supply and energy management systems on vessels
- Power generators
- Sewage treatment plants
- Seawater desalination plants

### Certificates

- NMEA 2000 INSTALATOR

## BWP

BWP produces various types of stainless & acid-proof steel and aluminum products that are characterized by exceptional durability and long life cycle. Characteristics of our solutions: unlimited range of sizes, variety of materials, various finishing: mirror polishing, electropolishing, powder-coating. We owe our success to high quality of products achieved through the constant development and investment in new technologies. We provide: metal laser cutting, machine bending of pipes & plates, robot welding, CNC machines, sand-blasting, professional powder-coating, plugs & molds. Our customers are national and foreign companies, sailing yachts & motorboats shipyards, and individual clients.

### Company's offer

- BWP produces mainly yachts fittings: handrails, railings, cleats, hatches, brackets, hinges, handrails, balustrades, roof supports, seats & table bases, water & fuel tanks, anchor system elements, windshields, windscreens, folding & sliding doors, companionway doors and many more custom design items, plugs & molds.

### Certificates

- BWP is a member of ABYC
- Cooperates with International Marine Certification Institute
- Fuel Tanks certified to ABYC standards and registered in NMMA

### Forms of cooperation

- International trade and distribution
- Joint Venture

## CANNA Boats

CANNA Boats specializes in the production of electric boats and motorboats that combine modern technology with a touch of retro style. Our vessels stand out for their unique design, comfort, and functionality, with every detail crafted with the utmost care, as we prioritize top quality. With experience and passion, we create boats that meet the expectations of even the most demanding clients. We cooperate with many countries across the European Union as well as the USA, delivering solutions that respond to diverse market needs and provide exceptional experiences on the water.

# Canna

### Company's offer

- CANNA One – electric boat
- CANNA b-One – boat designed for an outboard motor (petrol or electric)
- CANNA Unity – electric picnic boat for up to 7 people.

### Certificates

- CE

### Forms of cooperation

- International trade and distribution
- Investment

## Cobra Yachts

Cobra Yachts is a family company with over 20 years of experience in the yacht building industry. All yachts are built exclusively in the shipyard in Radomsko, Poland, under the direct supervision of the company's owners. Cobra Yachts addresses its offer to demanding users of modern motor boats. The company offers luxurious high-end models, such as Maestro 42 and Seamaster 45 with an unimaginable level of comfort. In 2024, the shipyard's offer was expanded to include Campione 41 in the Coupe and Fly versions and Gran Maestro 43. We have a dealer network operating in countries such as Germany, Switzerland, the Netherlands, Belgium, Turkey, the USA, Austria, Croatia, Slovenia, Canada, Norway.

## Zbroja Adwokaci

Zbroja Adwokaci is a law firm specializing in yacht law. We provide comprehensive legal support to yacht owners and companies involved in yacht production and sales. We assist with yacht registration in Poland and abroad. We advise on purchase, sale, and operation of yachts, and we create shipbuilding, charter, and distribution contracts. Our team has both legal experience and sailing knowledge, which helps us better understand the needs of the yacht industry.

# The Polish Chamber of Marine Industry and Water Sports – POLBOAT

The Polish Chamber of Marine Industry and Water Sports – POLBOAT was established on 11 May 2006 in Warsaw. The founding members were hundred business entities conducting activities in the field of production, services, water sports and water tourism. Multi-month efforts of a group of people, among which there were many members of the Polish Yachting Association, were successful and resulted in establishment of a superior organizational form being the Economic Chamber.

# The Polish Chamber of Marine Industry and Water Sports – POLBOAT

Having conducted necessary legal actions, on 1 January this year the Chamber started its official activities. The idea of founding members is that it should continue a very successful way of activities of the Boating Industry Association "Polish Yachts". In order to emphasize this fact, the entire property of the Association was transferred to the Chamber on the last, liquidation General Assembly held on 11 January 2007. The Economic Chamber associates twice as much members and is an obligatory partner for executive and legislative authorities. Thanks to that, we can act for interests of the whole industry in an incomparably more efficient manner. We hope that pursuant to the Act we will be able to effectively assist state and local administration.

And it is a lot of work to do. Successes and export achievements of our boating industry are known and enjoy genuine admiration of foreign competition. Time has come also to build a national market, adequate for potential of almost 40 million population in the center of Europe. We welcome everyone for whom development and well-being of broadly understood branch of water sports and tourism is very important.
